Experience

CodSoft
WEB DEVELOPMENT INTERNSHIP

REMOTE
December, 2023 - PRESENT

- Utilized HTML and CSS skills to create visually appealing websites, incorporating seamless design.
- Adeptly implemented JavaScript to enhance functionality in diverse front-end projects, including landing pages, tribute pages, portfolios, and calculators.
- Currently developing a MERN-based Job Board app, optimizing job exploration with secure browsing, saving, and application features.

Freelance Service

<div align="right">REMOTE</div>

WEB DEVELOPMENT

<div align="right">November, 2023 - PRESENT</div>

- Contributed to a philanthropic foundation's website, implementing seamless testimonial acquisition and creating an admin interface with secure login for event management.
- Integrated Paystack API for donation processing, enhancing the user-friendly and secure online platform for audience engagement.

Personal Projects

- Designed and implemented a Student Clearance Portal using HTML, CSS, JavaScript, and PHP, improving transparency and administrative workflows within an academic institution.
- Developed a React-based front-end for a school website, emphasizing dynamic interfaces for a seamless user experience.
